

# Public Health and the Agricultural Rural Ecosystem Graduate Training Scholarships

# PHARE

Do your research interests stop at the city limits, or do you seek answers in the country, with the people who live there, and in the health of the land?

The training program in Public Health and the Agricultural Rural Ecosystem (PHARE) provides scholarship funding for students at the graduate and postdoctoral level.

Open to any discipline, PHARE will give you special training in the health of rural people and agricultural ecosystems through one of the ten member universities.

Now open to all Canadian Universities

## Member universities

Dalhousie University	University of British Columbia
University Laval	University of Northern British Columbia
Queen's University	University of Prince Edward Island
University of Saskatchewan	University of Quebec at Chicoutimi
University of Alberta	University of Lethbridge
